#### **SMH 26**

date 1/3/2010

#### installed in the PS:

SMH 26.2 Installed in PS since 3/2006. Yoke 1, coil1.

## **Spare**

SMH 26.1 Yoke 2, coil 3. Spare magnet is under vacuum in building 169 R 004.

### **Present state of the spares:**

- 1 spare SMH 26 under vacuum, classed operational. Slightly radioactive 30  $\mu$ S/h. Beam observation installed.
- 1 spare coil, 26.2, but dropped during silver plating and re-shaped since. Leak test OK.
- Spare stripline in stock (former SMH58 type).

# **Procedure to replace magnet:**

Not written at this time.

#### **History**

Tank	Yokes	Coils	Installation date	Removal date	remarks
